

Noah Bennett

Sfax, Tunisia candidate.email@example.com +000 000 0000

Profile

Product Owner (PSPO I) and Delivery Manager with over 3 years of experience driving digital transformation in luxury retail, e-commerce and CRM environments for marquee brands such as LVMH, Celine and Marc Jacobs. Proven ability to translate ambiguous business needs into shipped solutions—ranging from requirements gathering and functional specifications to UAT, go-live and post-launch hyper-care—while leading cross-functional teams of up to 6 members. Strong analytical background complemented by hands-on expertise in Salesforce, OMS, Power BI and data-driven forecasting.

Education

University Name ill 2018 – 2022

Bachelor of Engineering, Computer Engineering

Relevant coursework: Software Engineering, Database Systems, Business Analytics

Professional Experience

Product Owner / Delivery Manager ill July 2023 – Present

OliveSoft, Sfax

- Led a 6-person AI/Data/Power BI team to build demand-forecasting models that achieved **90 % accuracy**, enabling logistics and purchasing teams to reduce stock-outs by 15 %.
- Designed and instituted a hyper-care process from scratch, resolving **90 %** of incidents within 24 h during the first month of rollout.
- Delivered a full-stack Salesforce Sales Cloud implementation in **2 months**, covering scoping, data migration, UAT and production go-live for a luxury fashion client.
- Coordinated OMS integration across **5 interconnected systems** (OneStock, ERP, POS, e-commerce, logistics), ensuring end-to-end order flow consistency.
- Rolled out a CRM solution compliant with China's PIPL law, safeguarding data privacy for **>200 k** customer records.

Service Delivery Manager ill February 2026 – May 2026

AtlasEnergies, Tunis

- Executed a Salesforce Sales Cloud implementation in **4 months**, delivering a complete MVP, data migration and dual-run strategy.
- Facilitated scoping workshops with senior stakeholders, translating business vision into a **3-month delivery roadmap** that met all go-live milestones.
- Managed UAT and production deployment, achieving a **zero-critical-defect** launch.

Product Owner ill September 2025 – February 2026

SOEUR, Sfax

- Directed the integration of OneStock OMS into the retailer's ecosystem, synchronising data across **5 systems** (OMS, ERP, POS, e-commerce, logistics).
- Authored and validated functional specifications for order-to-cash flows, reducing order-processing time by **20 %**.
- Championed stakeholder alignment, securing sign-off on MVP features within **2 weeks** of project kickoff.

Academic Projects

Retail Demand Forecasting Model ill January 2022 – June 2022

- Developed a time-series model in Python achieving **90 % prediction accuracy** on historical sales data for a luxury apparel dataset.
- Integrated the model with Power BI dashboards, reducing manual reporting effort by **30 %**.
