Professional Experience

Salesforce Developer ill August 2026 – Present

OliveSoft, Sfax

- Designed and implemented a Service Cloud & Experience Cloud solution for a client-facing portal, handling >10 000 monthly cases; reduced average case resolution time by 35 %.
- Integrated Einstein Case Classification, Article Recommendation and Summary, increasing self-service ticket deflection by 22 %.
- Developed custom LWC components and Apex business logic; achieved 99.9 % uptime during UAT and production rollout.
- Led an Agile Scrum team (5 members) using Jira, Confluence and GitHub; delivered all sprint goals on schedule for 6 consecutive sprints.

Salesforce Developer – CRM Implementation ill October 2024 – April 2025

OliveSoft, Sfax

- Delivered a full-stack Salesforce CRM covering leads, contacts, accounts and opportunities for a regional distributor; onboarded 3 000+ records with zero data loss.
- Automated reminder notifications via Flow Builder, improving sales follow-up compliance from 58 % to 94 %.
- Configured Permission Sets, classic authentication and SSO (SAML); reduced onboarding time for new users from 2 days to 4 hours.
- Produced comprehensive documentation in Confluence and managed release pipelines through Git, enabling seamless production deployment.

ETL Developer (Salesforce Integration) ill August 2024 – August 2024

OliveSoft, Sfax

- Built a Talend job to migrate 12 000+ contacts from BoondManager to Salesforce; implemented de-duplication rules that cut duplicate records by 97 %.
- Performed data cleansing, transformation and post-migration validation, achieving 100 % data integrity.

Power Platform Developer ill February 2024 – May 2024

OliveSoft, Sfax

- Created a mobile app for managing and classifying professional contacts; integrated real-time Salesforce APIs for bi-directional sync.
- Added in-app communication features (calls, SMS, email) that increased user engagement by 40 %.

Microsoft 365 / CMDB Developer ill June 2023 – August 2023

OliveSoft, Sfax

- Developed a centralized Configuration Management Database (CMDB) and ITSM workflow, supporting 150+ IT assets and reducing incident resolution time by 28 %.

Academic Projects

Intelligent Customer Request Management System ill February 2026 – June 2026

- Designed and built a Service Cloud & Experience Cloud solution that automatically classifies cases using Einstein AI, achieving 92 % classification accuracy.
- Implemented custom LWC portal and Apex automation; reduced manual case handling effort by 45 %.
- Produced KPI dashboards and reports for senior management, enabling data-driven decision making.
