

# Isabella Ross

Sfax, Tunisia    candidate.email@example.com    +000 000 0000

## Profile

Data Engineer with 3+ years of experience designing and operating end-to-end data pipelines, lakehouse architectures, and BI solutions. Proven ability to increase data availability by 30 % and reduce ETL processing time by 25 % through automation and performance tuning. Strong communicator fluent in Arabic, French and English, adept at bridging business needs with technical implementation.

## Education

**École Nationale d'Electronique et des Télécommunications de Sfax (ENETCom)** ill 2021 – 2024

Diplôme d'Ingénieur, Telecommunications Engineering

**Institut Préparatoire aux Études d'Ingénieur de Sfax (IPEIS)** ill 2019 – 2021

Preparatory Engineering Studies

## Professional Experience

**Data Engineer Consultant** ill Jan 2026 – Present

*LEMAIRE, Paris*

- Lead the design and deployment of a Microsoft Fabric data platform serving +200 users, cutting report generation latency from 12 min to 3 min (75 % improvement).
- Built over 30 automated ingestion pipelines (Talend, Azure Data Factory) moving 5 TB/month of raw data into a Lakehouse, achieving 99.8 % data freshness.
- Developed Power BI dashboards for supply-chain, sales and customer insights, increasing self-service analytics adoption by 40 %.

**Data Engineer** ill Jun 2024 – Present

*OliveSoft, Sfax*

- Designed and implemented a hybrid lake-warehouse architecture that reduced data duplication by 20 % and storage costs by 15 %.
- Created 12 real-time Talend jobs processing 200 k records/hour, achieving 99.5 % pipeline success rate.
- Authored technical specifications and integration blueprints adopted by three cross-functional teams.

**Consultant Data Engineer** ill Jun 2024 – Dec 2025

*JACQUEMUS, Paris*

- Developed and monitored both batch and streaming Talend jobs for the Order Management System, handling 1 M transactions/month.
- Implemented monitoring alerts that reduced incident resolution time from 4 h to 45 min (80 % faster).
- Produced technical specifications and integration blueprints that ensured seamless interoperability across ERP, CRM and OMS.

**Data Engineer Intern** ill Feb 2024 – May 2024

*OliveSoft, Sfax*

- Assisted in building ETL pipelines that onboarded 5 new data sources, increasing analytical coverage by 25 %.
- Conducted data quality audits, identifying and correcting > 10 k erroneous records.

**Business Intelligence Intern** ill Jul 2023 – Sep 2023

*ADN EXPERTISE, Tunisia*

- Implemented end-to-end ETL processes for an educational platform, reducing data latency from 48 h to 6 h.
- Developed 8 KPI dashboards in Power BI that supported strategic decisions for > 5 departments.

**Machine Learning Intern** ill Jun 2022 – Jul 2022

*Djagora Fablab, Sfax*

- Cleaned and pre-processed a COVID-19 testing dataset (12 k records) achieving 98 % data completeness.
- Trained classification models (Random Forest, XGBoost) attaining 87 % accuracy in predicting infection status.

## Academic Projects

**COVID-19 Prediction Model** ill Jun 2022 – Jul 2022

- Developed a machine-learning pipeline that achieved 87 % prediction accuracy on a held-out test set.

- Deployed the model as a Flask API, enabling real-time inference for a prototype health-monitoring app.

#### ETL Platform for Educational Portal ill Jul 2023 – Sep 2023

- Designed an automated ETL workflow (Python + Airflow) that reduced data refresh time from 48 h to 6 h.
- Integrated data quality checks that lowered downstream error rates by 30 %.

#### Associative Experience

---

Volunteer Data Analyst – Local NGO “Tech4 Youth” ill Sep 2021 – Jun 2022

- Built a dashboard tracking scholarship applications, increasing transparency and reducing processing time by 40 %.

#### Skills

---

% **Programming:** Python, SQL, Bash, Java

**Data Engineering:** Talend, Azure Data Factory, Apache Airflow, Snowflake, Databricks

**Cloud & BI:** Microsoft Fabric, Power BI, Azure Synapse, Tableau

**DevOps:** Git, Docker, CI/CD (GitHub Actions)

**Machine Learning:** Scikit-learn, XGBoost, Pandas, NumPy

#### Languages

---

**Arabic:** Native    **French:** Professional    **English:** Professional

#### Certifications and Awards

---

- Microsoft Certified: Data Engineer Associate
- Microsoft Fabric Associate
- Make Foundation Associate – Integration Developer
- DevOps Introductory Training – CDOSS
- CDOSS Machine Learning with Python
