

Julian Hayes

Antony, Île-de-City, Country candidate.email@example.com +000 000 0000

Profile

Strategic Managing Partner with 15+ years of experience driving data-centric transformation, AI adoption, and enterprise architecture across telecom, retail, and energy sectors. Proven track record of delivering multi-year programs that increase operational efficiency by up to 30 % and enable revenue growth of EUR 200 M+ through scalable technology platforms.

Education

ESCP Business University Name ill 2009 – 2010

Master of Science – Digital Transformation Management

INSA Lyon ill 1999 – 2004

Engineer degree – Computer Science & Telecommunications

Professional Experience

Managing Partner ill November 2023 – Present

OliveSoft, Paris, Île-de-France

- Lead a cross-functional team of 25 consultants to design AI-enabled data platforms for 12 European clients, generating EUR 12 M in new business within the first year.
- Define and implement a proprietary architecture framework that reduced client project delivery times by 22 % while maintaining ISO-27001 compliance.

Architecture & Data Manager ill January 2023 – November 2023

CELINE, Paris, Île-de-France

- Oversaw migration of 3 PB of legacy data to a cloud-native lake, improving data retrieval speed by 35 % and cutting storage costs by EUR 1.4 M annually.
- Introduced a governance model that increased data quality scores from 78 % to 94 % across 8 business units.

IS Manager – Governance, Architecture, QA ill September 2018 – November 2023

Dataflows, Paris Area, France

- Directed a portfolio of 14 data-integration projects, delivering on-time results for 95 % of milestones and achieving a 28 % reduction in defect leakage.
- Championed a CI/CD pipeline for data pipelines, decreasing release cycle from 4 weeks to 1 week.

IS Clienteling Manager ill January 2021 – November 2021

Dataflows, Paris, Île-de-France

- Launched a clienteling platform that boosted upsell conversion by 18 % and added EUR 3.2 M in annual revenue.

IS Ecommerce Manager ill January 2021 – September 2021

Dataflows, Paris, Île-de-France

- Optimized the e-commerce checkout flow, reducing cart abandonment from 62 % to 48 % within three months.

Enterprise Architect ill July 2015 – August 2018

Bouygues Telecom, Vélizy, France

- Designed a 5-year network-architecture roadmap that supported a 40 % increase in subscriber base while maintaining SLA compliance.
- Led a team of 12 architects to implement SD-WAN, delivering a EUR 5 M cost saving on MPLS contracts.

Omnichannel Architect ill January 2013 – July 2015

Galleries Lafayette, Paris Area, France

- Integrated online and in-store inventory systems, improving stock visibility by 27 % and increasing same-day delivery orders by 15 %.

Senior Consultant ill February 2005 – January 2013

Wavestone, Paris La Défense, Île-de-France

- Delivered 30+ large-scale IT transformation projects for clients in finance, retail, and energy, with an average ROI of 180 %.

Information System Architect ill January 2011 – December 2012

EDELIA (Filiale Groupe EDF), Courbevoie, France

- Implemented a smart-grid data platform handling 2 M daily measurements, enhancing forecasting accuracy by 12 %.

EAI Project Team Leader ill May 2008 – July 2010

Groupama Asset Management, France

- Coordinated a 9-member team to deliver an enterprise-wide EAI solution, cutting integration time by 40 %.

Assistant Project Manager ill January 2007 – April 2008

LVMH, France

- Supported rollout of a global ERP system across 15 boutiques, achieving a 98 % on-time launch rate.

EAI/SOA Architect Leader ill June 2006 – January 2007

SFR, France

- Defined SOA standards that reduced service duplication by 30 % and accelerated time-to-market for new services.

Academic Projects

Scalable Predictive Maintenance Platform ill March 2020 – August 2020

- Developed a machine-learning pipeline in Python that predicted equipment failures with 92 % accuracy on a dataset of 1.2 M records.
- Deployed the solution on Kubernetes, achieving a 3\$ times\$ reduction in processing latency.

Associative Experience

Mentor – Data Science Bootcamp ill September 2021 – Present

DataScienceFrance, Paris, France

Skills

% **Data & AI:** Python, SQL, Spark, TensorFlow, Power BI, Tableau
