

Owen Parker

Sfax, Tunisia candidate.email@example.com +000 000 0000

Profile

Data Integration Engineer with 3+ years of experience designing, implementing, and optimizing end-to-end data pipelines using Talend and Azure technologies. Proven ability to reduce processing times by up to 35 % and improve data quality through automated validation. Strong collaborator who bridges business requirements and technical solutions in fast-paced environments.

Education

National Engineering University Name ill 2020 – 2023

Preparatory Cycle in Computer Engineering

Focused on algorithms, databases, and software engineering fundamentals.

Professional Experience

Data Engineer ill July 2023 – Present

OliveSoft, Sfax, Tunisia

- Designed and deployed 12 Talend ETL jobs that processed > 15 TB of raw data per month, cutting total pipeline latency by 30 %.
- Migrated on-premise data workflows to Azure Data Factory, achieving a 25 % cost reduction and enabling scalable, serverless execution.
- Implemented CI/CD pipelines in Azure DevOps, decreasing release cycle time from 2 weeks to 3 days.
- Mentored 3 junior developers, improving team code-review turnaround by 40 %.

Data Integration Intern ill February 2023 – June 2023

OliveSoft, Sfax, Tunisia

- Automated data cleansing routines that raised data accuracy from 92 % to 98 %.
- Assisted in the migration of legacy SQL jobs to Talend, reducing manual effort by 20 hours per month.

Data Engineering Intern ill October 2022 – January 2023

OliveSoft, Paris, France

- Developed a prototype Azure Function for real-time data validation, processing 5 k events/sec with < 200 ms latency.
- Produced documentation that shortened onboarding time for new interns by 50 %.

Remote Integration Intern ill June 2022 – August 2022

OliveSoft (Remote)

- Built a reusable Talend component for CSV-to-JSON conversion, reused in 4 subsequent projects.

Intern – IT Support ill July 2021 – August 2021

STE PERFAXIS, Sfax, Tunisia

- Provided first-level support for 50+ users, achieving a 95 % ticket-resolution rate within 24 hours.

Academic Projects

Smart Data Warehouse ill March 2022 – June 2022

- Developed a data warehouse schema in Azure Synapse, supporting analytical queries with sub-second response times.
- Implemented incremental load processes that reduced daily data refresh time by 40 %.

Associative Experience

Volunteer Data Analyst – Local NGO “Tech4 Good” ill September 2020 – December 2021

Skills

% Data Integration: Talend, Azure Data Factory, SQL, SSIS

Cloud & DevOps: Microsoft Azure, Azure DevOps, Docker, Kubernetes

Programming: Python, Java, C, Bash

Version Control: Git, GitHub

Other Tools: Power BI, Tableau, JIRA

Languages

French: Native **English:** Professional **Arabic:** Native

Certifications and Awards

- Professional Integration Developer Certification (Talend)
- Scrum Fundamentals Certificate
